Re: Refrigeration Equipment Preventive Maintenance – Additions to Equipment List

We awarded the Refrigeration Equipment Preventive Maintenance Service Agreement to Thayer Corporation in February 2020. Thayer Corp visited the schools to apply tags to our equipment with their contact information and it was discovered that some additional equipment was found that was not included in the original RFP documents. The below equipment and costs should be added to the original bid:

- 2 reach-in coolers (NJSH)
- 2- exhaust hoods with make-up air (1 at each school)
- 1- ice machine for trainers room (NJSH)

Original Proposal: \$5,850 annually

New Proposal with Adds: \$7,656 annually
